Education

Computer Science Program (Deferred Start)

Accepted to a CEGEP Computer Science Program in Canada

July 2025 – Present (Deferred due to financial reasons)

- Graduated from secondary school in June 2025.
 - Plan to begin CEGEP studies after the internship.
 - Focus areas: Full-Stack Development, Software Engineering, and Artificial Intelligence applications.
-

Technical Skills

Languages: Python, JavaScript, HTML, CSS, TypeScript

Frameworks & Tools: React (Intermediate), Angular (Intermediate), Node.js (Basic), Firebase, Git, VS Code

Areas of Interest: Full-Stack Development, AI Integration, Data-Driven Applications

Experience

Independent Software Development Training

Self-directed learning and project development — Remote

July 2023 – Present

- Designed and built several web applications using React, Angular, Node.js, HTML, CSS, and Firebase.
- Participated in Python hackathons to strengthen algorithmic and problem-solving skills.
- Completed **IBM Engineering training courses**, focusing on Full-Stack development and applying AI techniques to software projects.

- Developed technical knowledge in APIs, responsive design, and data structures through hands-on projects.
-

Projects

Flowy – Ingredient-based recipe web app (Hackathon Project)

- Created a web app that suggests recipes based on available ingredients.
- Implemented front-end with HTML, CSS, and JavaScript; built interactivity and state management with React.
- Focused on user experience and accessibility.

Personal Portfolio (under construction)

- Developing a portfolio website to showcase ongoing and completed full-stack projects.
 - Integrating modern front-end frameworks and responsive design principles.
-

Achievements

- Completed IBM Software Engineering and Quantum Computing learning tracks.
 - Completed multiple AI courses and programs.
 - Continuously learning through online platforms (Coursera, IBM SkillsBuild).
 - Demonstrated initiative and resilience through self-guided study and practical projects.
-

Languages

- Spanish: Native
- English: Fluent
- French: Intermediate

- Italian: Basic

Availability

- Available full-time for 12 weeks (Summer 2026).
- Will begin CEGEP Computer Science studies after the internship.

Recruiting Team

Google Canada

Dear Hiring Committee,

I am writing to express my strong interest in the Software Developer Intern (BS) position for Summer 2026. I am confident that, if given the opportunity, I could be a valuable contributor to your team and help grow innovative projects. I have been deeply involved in independent training in software development since July 2023, but my passion for programming began much earlier. I was accepted to a Computer Science program at a CEGEP in Canada and plan to begin my studies after the internship.

Using my skills to contribute to Google's noble mission is one of my greatest dreams. I am deeply excited about Google's commitment to innovation, mentorship, and impact. I am confident in what I know, yet humble enough to recognize that I still have much to learn. I am particularly inspired by how Google integrates Artificial Intelligence and Software Engineering to solve global-scale challenges. I hope to contribute my curiosity, problem-solving mindset, and eagerness to learn within such a dynamic team.

Currently, due to financial reasons, I was unable to start my CEGEP studies as an international student. However, this is far from a lost year — I decided to dedicate this time to perfecting my skills: intellectually by learning new programming languages and techniques, and personally by developing emotional intelligence, teamwork, leadership, and even exploring hobbies such as learning Italian and cooking. I plan to resume my Computer Science studies immediately after completing the internship, in the next available academic term, when my situation will allow me to pursue the studies I deeply aspire to.

Thank you for considering my application. I look forward to the possibility of contributing to Google's mission while continuing to grow as a developer.

Sincerely,

Fiorella Rios Campos
